PROFILE

Hardworking front-end developer with the desire and ability to learn new languages and technologies. Prior to becoming a front-end developer, I worked as an Executive Administrator for two municipalities, a church, and a salon where I managed subcontractors, volunteers, financial programs, and was required to become proficient and to train staff in many different software programs.

FULL STACK DEVELOPMENT PORTFOLIO

Gym-Tan-Laundry (May 2020)| gym-tan-laundry.herokuapp.com | github.com/digitalcrafts-atl/Gym-Tan-Laundry
- Member of a 5-person development team building a playlist development site that allows users to create a randomized playlist based on "Gym", "Tan", and "Laundry" categories.
- Primary responsibilities included assisting with Front-End design using EJS, learning and implementing Spotify's API parameters, writing the functions in JavaScript that populated and rendered playlists.
- Built with Bootstrap, JavaScript, RESTful API, Axios, Express, EJS, Passport JS.

Twitch Lyfe (March 2020)| twitchstreamlyfe.com.s3-website.us-east-1.amazonaws.com| github.com/jadaquandt/Twitch-Lyfe-Website
- Member of a 6-person development team building a Twitch website to feature the top streamers, top streamed games, and a search page to search the IGDB API to learn more about games.
- Responsibilities included designing and assembling a fully mobile-responsive layout and creating the search page utilizing Javascript to render searches from the IGDB API
- Built with HTML, CSS, Bootstrap, JavaScript, RESTful API, and Axios.

PROFESSIONAL EXPERIENCE

Front Desk/Social Media Coordinator |Darling & Co. Salon| Decatur, GA | October 2017 – January 2020
